

## Day Care Admissions Policy

Here at Grosvenor our mission statement is:

“To provide high quality, affordable and accessible childcare to children aged 0-5 years in a safe, supportive, stimulating and nurturing environment and to work in partnership with parents, the local Start Well Team and Ofsted in the provision of this childcare.”

Our aims are to:

- ☺ Provide a caring, secure, stimulating and safe environment for all children.
- ☺ Promote a child’s development and learning so that they can reach their full potential, emotionally, intellectually, physically and socially.
- ☺ Value each child - their needs and abilities recognised and their achievements celebrated.
- ☺ Provide equal access to appropriate care and ensure that all children are happy and secure and enjoy their childhood.

We aim to fulfil our mission statement by accommodating the sessions that you require, wherever possible.

To help children feel settled and secure we offer a minimum of 2 sessions – this can comprise of 1 full day or 2 half days, mornings or afternoons.

We feel that a child coming less than this will not gain the full experience of the nursery and may take a long time to settle in. This in turn means it is difficult for the key person to form a bond and get to know your child properly.

After your child has started if you need to add extra sessions we will always try to accommodate your request, however the nursery does get booked up so it may not be possible.
